An Open Letter from the President of Galaxie

Dear Friends and Customers,

Never in my twenty six years in the used machinery business have I seen a greater opportunity for you to make strategic moves in the metals industry – moves that not only will help assure your company's survival, but give it a competitive edge in the challenging days ahead.

In the last few months we have seen world financial markets reel and demand fall in almost every sector of the economy.

As a result, prices have never been cheaper – and never will be cheaper – for the high-quality, late-model equipment we have for sale. This includes our inventory and sales arranged directly from manufacturing plants around the world.

Do check out our latest catalog. We have slashed prices across the board from ten to fifty percent. Contact us today. Make an offer. What are you willing to pay? All reasonable offers will be considered.

This is time for the “little guy” to make his move, when your competitors are frozen by fear. Downturns always end. And when this one does, you will be sitting pretty with your late-model, used machine – having had the courage to act while everyone else was hiding in their holes.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Cauffiel". The signature is fluid and cursive, with a large initial "J" and "C".

John Cauffiel
President
